EXPERIENCE

Grëg Häris, Nigeria – *Software Developer (Freelancing)*

September 2024 – Present

- Developed and deployed 3 responsive web applications for clients using Next.js, React, TypeScript, and Tailwind CSS, improving user experience and conversion rates.
- Collaborated closely with clients to understand their needs and deliver solutions exceeding expectations.
- Utilized Git for version control and efficient code management.

Masterpiece Capital Limited, Abuja, Nigeria - *Marketing Executive, Property Manager, and Airbnb Host*
January 2021 – June 2024

- *Marketing and Property Management Trainee* (January 2021 – June 2021)
- *Marketing Executive, Property Manager, and Airbnb Host* – (July 2021 – June 2024)

- Progressed from Marketing and Property Management Trainee to Marketing Executive, Property Manager, and Airbnb Host, demonstrating rapid career advancement and increasing responsibility within 6 months.
- Developed and executed marketing strategies, launching over 25 social media campaigns (10+ as a Trainee, 15+ as an Executive) and implementing targeted email marketing initiatives, resulting in a 100% increase in social traffic or a 40% rise in lead generation].

- Scaled the short-let (Airbnb) apartment portfolio by 173% (from 11 to 30 units) within one year and consistently maintained a 70% monthly occupancy rate through proactive sales activities, including crafting and presenting 40+ compelling offers and proposals.
- Oversaw all financial reporting for the property portfolio, ensuring transparent and accurate communication of income, expenses, and investment performance to stakeholders, and facilitating informed decision-making.
- As a property manager, I directed and mentored a team of 10+ staff and external vendors, optimizing operational efficiency and service delivery, building upon initial experience, and supporting management as a trainee.

Federal Ministry of Information and Culture, Abuja - *Human Resources*
Management Department Office Assistant -National Youth Service Corp (NYSC)
December 2018 – October 2019

- Maintained employee records (digital and physical), updating the HR database with new hires, leave, and other relevant information.
- Processed employee requests, provided information, and prepared official schedules.

EDUCATION
